RIVERFRONT RESIDENCES

by Reportage.

A New Expression of Living in Abuja

Riverfront residence introduces a new rhythm of living in **Abuja** where contemporary architecture, a water body, and landscaped surroundings come together within one connected community.

Residential towers and townhouses are shaped around open spaces, gardens and flowing water, creating a setting where every view, pathway and shared space feels part of a wider experience. The masterplan brings together private living, wellness, recreation and social spaces while maintaining a strong connection with the outdoors.

Here, architecture does more than define the skyline. It frames nature, creates moments of calm and brings people closer to the spaces around them.

A place designed for movement.
For connection.
For a more intentional way of life.
Where every step becomes part of the experience.
Step Towards Extraordinary.

Reportage.
MEH DEVELOPMENT

Reportage Comes to Abuja

In **2025**, **Reportage** entered the Nigerian market through a strategic partnership with MEH Realty Limited, a Nigerian real estate company with strong local market knowledge and esthablished relationships within the industry.

This partnership gave rise to **Reportage MEH Development**, combining Reportage's international development expertise and standards with MEH Realty's understanding of the Nigerian market.

After the success of Reportage Tower Lagos, the group aims to bring it's approach to contemporary development, quality and value creation to **Abuja** while contributing to the country's evolving real estate landscape.
